

# Project Proposal

## 1. Project Name

Employee W

## 2. Project Background

### Introduction

With the rapid development of artificial intelligence (AI) technology, the development of enhanced virtual employees that can replace many traditional tasks of human employees has become possible. This transformative potential is at the core of the GPA strategic plan, "Employee W."

### Technological progress

The Development of AI Technology: Recent advancements in the field of AI, including advanced data extraction, reasoning capabilities, and patent recognition technology, have made it possible to create virtual employees. These virtual employees are able to perform complex information processing tasks that were once exclusive to human workers.

### The Advantages of GPA
